

LAND COVER IN KANO

What covers the ground

Land cover

- Built-up
- Cropland
- Bare ground
- Grass
- Shrubs
- Trees
- Water and wetland

This map shows what covers the ground, from ESA WorldCover 2021. Each cell is 30 metres, the most common cover among nine 10-metre cells. Built-up is 45% of the area and cropland 40%, bare earth in the hot season.
